The ChechenR keyboard

Erwin R. Komen - February 16, 2021

The keyboard 'ChechenR' installs as 'Russian' and can be used instead of the standard Russian keyboard.

The additions to the Russian keyboard are all with **AltGr** or with **Alt+Ctrl**.

Normal Russian key	With **AltGr** or **Alt+Ctrl**
a	ā
e	ē
o	ō
y	ȳ
(	«
)	»
/	I
